Introduction to

AgriStrategies LLC

AgriStrategies LLC is proud to sponsor the first **Magnetic Ag** newsletter of April 2021. I'm here because I can help you and your customers and suppliers in the agricultural industry supply chain. I hope you will schedule a **free consultation** with me so we can discuss how I can help!

In fact, AgriStrategies LLC will **make a donation to the National FFA Foundation** for each free consultation with me that is scheduled in April 2021 and accompanied by the April 2, 2021 Magnetic Ag newsletter.

Examples of what I can help with by bringing my 30 years of, financial management and ag banking, experience and perspectives, to agricultural producers, processors and suppliers, include improving cash flow and profitability, managing their business and finances, bringing in the next generation, putting together a projection, communicating a business plan, facilitating stakeholder discussions, restructuring a balance sheet, getting an existing lender or a new lender or a credit manager comfortable with a credit request and analyzing decisions that need to be made, etc.

If you are an agricultural producer, supplier or processor, or know of one, that might need some help, I would very much like to talk to you to see how I can help. So, please contact me now to **schedule a free consultation and help support the National FFA Foundation**. I look forward to our discussion! Thank you!

Why Do Your Lenders Want You To Work With AgriStrategies LLC?

AgriStrategies knows what lenders want and helps you position your business to attract capital in a timely and cost-effective manner.

AgriStrategies assists your business in communicating with your lenders in a way that reduces the questions they have, the time it takes them to answer your requests and the costs involved in working with your business which improves your profitability and your lenders' profitability.

AgriStrategies improves the quality of the financial management of your business so that your profits improve, your compliance with your lenders' requirements are met and your lenders' risks, interest rates and fees are reduced.

AgriStrategies projects future cash flows under various scenarios and builds a plan that addresses the funding needs for each of those scenarios which minimizes uncomfortable surprises for you and your lenders.

AgriStrategies analyzes your business decisions and communicates the rationale for those decisions to, and incorporates feedback from, all stakeholders including the owners, investors, managers, coaches, employees, lenders, regulators, customers, suppliers, and community members to improve the probability of success and acceptance of the decisions.

AgriStrategies is a third-party, independent, advisor that will bring great perspectives and assistance to your management team on an ongoing basis and help your lenders better understand your business and your industry.

AgriStrategies focuses on defining success, assessing strengths, and then leveraging those strengths to achieve success with a plan that shows lenders the potential of your business.

What Questions Can AgriStrategies LLC Help Answer For Your Business?

How can we improve the cash flow, profitability and financial and risk management of our business and justify the reinvestment that is needed for our business?

How should we communicate our vision for the future, manage the business and especially the finances, facilitate discussions with lenders, vendors and investors, analyze decisions that need to be made, and use independent perspectives to run our business?

How will we find the time and expertise to answer these questions, keep projects and ongoing operations on track and periodically review actual results and upcoming plans?

How are our business model, strategic partners, management philosophies, risk appetite, perspectives and decision making going to change to adapt to the future of our business?

How do we make sure that we communicate with all existing and potential stakeholders such as the owners, investors, managers, coaches, employees, lenders, regulators, customers, suppliers, and community members that have a say in the decisions that need to be made for our business?

How should we assess and leverage our strengths and the internal and external environments to be sure we have the right perspectives, plans and goals for our business?

How can we define success for our business and create a plan to achieve it?

How will we identify, approve and work with internal and external stakeholders to meet their needs and obtain the funding and approvals for our business?

How are we going to make sure we have the time and resources for developing knowledge, skills, abilities, and procedures to achieve success for our business?

How Can AgriStrategies LLC Help Agricultural Suppliers Grow Their Business?

Whether agricultural suppliers sell genetics, feed, chemicals, supplies, equipment or services to the crop or livestock industries, they need to grow with financially viable farmers that are growing.

AgriStrategies LLC can work with agricultural suppliers to help farmer customers improve their financial management, vision and on-going growth and viability.

Farmers don't always have the time, experiences, skills, tools, visions, contacts, knowledge, passions, perspectives, aptitudes, or priorities to accomplish all of the crucial tasks on their farms.

AgriStrategies LLC can work with agricultural suppliers to increase sales by helping farmers improve their funding, cash flow, profitability and financial management.

Agricultural suppliers provide services to help farmers complete crucial operational, technical, planning, analysis, management and decision-making tasks.

AgriStrategies LLC can work with agricultural suppliers to help farmers better communicate their needs and honor their commitments to their suppliers.

Farmers often outsource legal, tax, accounting, regulatory, environmental, risk management, marketing, technology and financial tasks to experts that help them complete these crucial tasks.

AgriStrategies LLC can work with agricultural suppliers to support and secure funding for farmers to finance purchases from agricultural suppliers.

Agricultural suppliers can build loyalty, trust and their own business by investing in their farmer customers and providing services that help farmers manage their business.

AgriStrategies LLC can work with agricultural suppliers to build customer value by delivering financial management expertise to beginning and experienced farmers.

How Can AgriStrategies LLC Help Agricultural Suppliers Manage Their Credit Risk?

As the size, complexity and credit risk of farms increase, agricultural suppliers need to require better information from farmers to plan for and manage increasing credit exposure.

AgriStrategies LLC can work with agricultural suppliers to help farmers better communicate their needs and how they will meet all of their obligations.

When farmers request high levels of credit or extended terms, they should be expected to present a cash flow plan that shows how and when they will repay their debts within the requested terms.

AgriStrategies LLC can work with agricultural suppliers to help farmer customers improve and support their financial management, vision and credit worthiness.

Agricultural suppliers need to have a written credit policy approved by the board, management, sales and credit and insist that farmers obtain their credit elsewhere if they don't meet the policy.

AgriStrategies LLC can work with agricultural suppliers to establish credit policies and support and secure funding for farmers to finance necessary purchases.

Farmers don't always have the time, experiences, skills, tools, visions, contacts, knowledge, passions, perspectives, aptitudes, or priorities to accomplish all of the crucial tasks on their farms.

AgriStrategies LLC can work with agricultural suppliers to build customer value by delivering financial management expertise to beginning and experienced farmers.

Agricultural suppliers need to increase sales without increasing credit risk as much so that they actually collect and profit from the increased sales.

AgriStrategies LLC can work with agricultural suppliers to increase sales by helping farmers improve their funding, cash flow, profitability and financial management.

How Can AgriStrategies LLC Help Agricultural Processors And Marketers Build A Stronger Supply Chain?

Agricultural processors and marketers need to grow with a supply chain of financially viable farmers that focus on their strengths and grow with the supply chain.

AgriStrategies LLC can work with agricultural processors and marketers to help farmer suppliers improve their financial management, vision, growth and viability.

Farmers don't always have the time, experiences, skills, tools, visions, contacts, knowledge, passions, perspectives, aptitudes, or priorities to accomplish all of the crucial tasks on their farms.

AgriStrategies LLC can work with agricultural processors and marketers to help farmers improve their funding, cash flow, profitability and financial management.

Agricultural processors and marketers provide services to help farmers complete crucial operational, technical, planning, analysis, management and decision-making tasks.

AgriStrategies LLC can work with agricultural processors and marketers to help farmers communicate their needs and honor their supply chain commitments.

Farmers often outsource legal, tax, accounting, regulatory, environmental, risk management, marketing, technology and financial tasks to experts that help them complete these crucial tasks.

AgriStrategies LLC can work with agricultural processors and marketers to secure funding for farmers to finance supply chain requirements and improvements.

Agricultural processors and marketers can build loyalty, trust and their own business by investing in their farmer supply chain and providing services that help farmers manage their business.

AgriStrategies LLC can work with agricultural processors and marketers to build supply chain value by delivering financial skills to new and experienced farmers.

AgriStrategies LLC

Steve Kluemper

Bio

BACKGROUND AND EDUCATION: Steve grew up on a livestock farm in Indiana, earned a bachelor's degree from Purdue University in Agricultural Economics and ten years later earned a Food and Agribusiness Masters in Business Administration degree from Purdue. Steve has a passion for bringing his agricultural background and education to others involved with the future of agriculture as a way to pay it forward for everything agriculture has given him and his family.

CAREER: Prior to founding AgriStrategies LLC in 2019, Steve lived in Indiana, Colorado, Missouri, Georgia, Kentucky, Wisconsin and Michigan during his 30 year professional career as an agribusiness banker with business development, portfolio management, underwriting, credit approval, policy/procedure administration and personnel management responsibilities.

He has coached agribusiness management teams including producers, processors and suppliers from startups to large corporations across the U.S. He focuses on improving the health of the business, not just fixing the symptoms. He's worked in various agricultural industries understanding the ins and outs of all aspects of the supply chain.

He has arranged funding for agribusinesses from capital providers in the form of unsecured cash flow lending, receivable and inventory financing, equipment and facility leasing and loans, real estate lending, and second lien financing as a single lender and as part of multi-bank syndications.

KNOWLEDGE AND EXPERIENCE: Steve is experienced in and has a passion for coaching and assisting his agribusiness management teams regarding what he and they can do to maximize the value of their business. This is done after assessing the businesses' situation and setting realistic goals. He has worked with dairy, poultry, swine, cattle, row crops, vegetable, fruits, greenhouse, grain, feed, farm supply, processing and other businesses of all sizes. He is also experienced in and passionate about finding capital partners that have the risk appetite to achieve management's goals and objectives by utilizing his vast network of industry professionals.
